LBS

HIGH QUALITY NATURAL SLATE FROM AROUND THE WORLD
**LBS ONLY
IMPORT
THE FINEST**

LBS is Ireland's exclusive distributor of Glendyne natural slate. The Glendyne slate is an excellent quality roofing slate and is quarried in Saint-Marc-du-Lac-Long, Quebec, Canada. The quarry was first opened at the beginning of the 20th century by Welsh quarrymen who had migrated to Canada.

BENEFITS

- Smooth, clean & attractive slate
- A quarry-backed 75 year guarantee
- Unrivalled performance in all climates
- Renowned worldwide for its high-quality
- Free of pyrite, so it does not rust
- Minimal grading & minimal waste

Note: Glendyne slates come in imperial dimensions and not in metric.

Glendyne slate is a smooth, clean and attractive slate which is blue grey in colour and has a very similar appearance to slates from the Oakley quarry in Ffesteniog, North Wales. Glendyne slates are available in standard sizes of 20x10" (508 x 254), 20x12" (508 x 305) and 24x12" (610 x 305). They have a nominal thickness of 5-6mm, come pre-holed to a 98mm head-lap and come in one premium grade.

These slates are famous throughout the world and are popular, not only in their home markets of North America, but also in Australia and throughout Europe where discerning customers appreciate a high quality roofing slate.

The Glendyne slates achieve the highest possible classification under the European standard BS EN 12326-1:2014 and are W1, S1 and T1 rated.
